BENEFITS

TRENDY

Modern and timeless, the vertical lines that run through the bowls make the Symétrie stemglasses collection a **must-have** to bring a dash of style.

TABLE & BAR

With its wide range, the Symétrie collection has been designed to **set the tables of the trendiest restaurants**, as well as become the canvas of the incredible **creations of mixologists**.

REVEALER

The vertical lines of Symétrie create a **perfect optical illusion** that disappears once the liquid is poured to **reveal the full transparency** of the Chef&Sommelier stemglasses.
